ECOMMERCE

PROTECTION AND DELIVERY

Grizzled Geeks integrated strategy begins with protecting you on Ecommerce.

The key to long term commercial success within North America is to protect yourself on Ecommerce with branding, enforced MAPP and 3P Restriction Policies. The same polices companies like Asmodee and Lego use to protect their brands.

These protections mean that no one can deep discount your games and only your designated representative can sell your products on 3rd Party Platforms like Amazon.

ECOMMERCE

PROTECTION AND DELIVERY

Branding, AI and SEO optimization, Paid Marketing, MAP protection and 3P Enforcement are all part of Grizzled Geeks standard support.

We go far beyond just Amazon. Walmart.com, Ebay, TikTok, Facebook and Instagram are all leveraged and backed by our paid marketing.

We work to deliver your present and protect your future

Grizzled Geek and its partners provide the show space, staff, tables, systems and logistics coordination. You simply provide the product.

DISTRIBUTION

STRATEGY AND PARTNERSHIP

Grizzled Geek has a Network of Distributors throughout North America that support both MAP and 3P Ecom Restrictions. This creates the network to deliver the volume and market penetration you need while ensuring the long-term value of your product is not diminished.

Grizzled Geek understands the strategic importance and the challenging margins with Distribution. In order to protect our partners we forgo all profits from this channel, passing all net revenue directly to you.

INTERNATIONAL

OPPORTUNITY AND EXPANSION

Our International Distribution Chain can place an order before you go to print and pick up directly from your manufacturer.
